

ECO-HYBRID

TECHNICAL & GUARANTEE UPGRADE

“Now supplied with a 10-year DGCOS Insurance Backed Guarantee. A Premium Level Insurance Policy”

Endorsed by Nick Ross (Crimewatch)

System Approved

This is to certify that PhotonFrame thin reflective composite insulation is approved for use in **Your Choice Conservatory Roof Systems**. PhotonFrame was designed and is manufactured in Britain to meet the specific requirements of British Conservatories and climate. The enhanced thermal performance of the Your Choice Conservatory Roof Systems has been verified by laboratory testing of the complete roof structure.

Mark Seddon, Managing Director
Thermic Technology Ltd

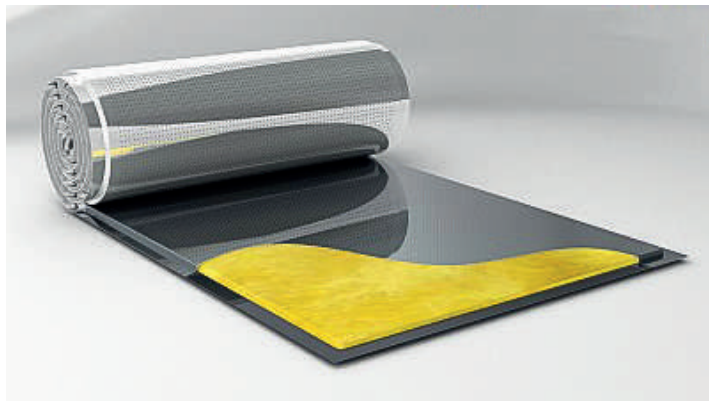

Improving the thermal efficiency of your home.....

Your Choice is committed to providing the best solutions to you, the customer. We have collaborated directly with a leading manufacturer, and using our experience and unique methods, have developed our new and improved insulation solution that has been combined with our original system to establish a new laboratory verified solution. Verified under stringent test conditions to use in conservatories fitted with glass or polycarbonate.

Our brand new insulation offers so much more benefits than our old insulation and delivers improved thermal performance that has been verified by laboratory testing of the complete roof structure for Your Choice products.

We can now boast an exclusive product to all our future customers, knowing that our competitors can't offer a solution as useful as Your Choice insulation.
